

The future does not belong to those who are content with today, apathetic towards common problems and humankind alike, timid and fearful in the face of new ideas and challenging dilemmas. Rather it will belong to those who can blend passion, reason and courage in a personal commitment to the ideals of the common good.

Few of us will have the greatness to bend history itself, but each of us can work to change a small portion of events, and in the total of all those acts will be written the history of our time. I do not know what you will choose to do, but I know because you have chosen to join Asian International College and you are interested in the common good.

It doesn't matter what your interests are or what you've studied before. However, you will get opportunity to breed new ideas in Asian International College. You will be involved in technical, and policy analysis; provide services; shape, implement, and enforce your knowledge in our simulation programme, which will be an asset in your future professional career.

You may end up very successful in life. You may end up very famous. You may end up very wealthy. However, if you have abandoned your friends that you made in Asian International College, none of that will matter very much. Lean on your friends, let them lean on you, and your life will be immeasurably richer.

Lastly, I want to express my appreciation to the entire faculty, and the students at Asian International College for the contribution you have given up to now to bring the institution at this level. I know you all have worked hard to get where we are today.

(Dr. Subarna Lal Bajracharya)  
Chairman

In this global world, one cannot go ahead without having quality education. Meeting this fact, start your career with Asian Int'l College. So, on behalf of AIC I'd like to welcome you all. Thank you!

Tulsi Man Singh  
Vice-Chairman

New technologies stand to improve the efficiency of education through tools that improve students' performance and new means of providing instruction and educational resources. At this stage of academic career, students of higher studies get to enhance their capabilities that have not explored yet. Asian Int'l College (AIC) offers such students with an opportunity to discover an educational experience in a disciplined atmosphere, loving care of the teachers and warm companionship of friends. It wouldn't be exaggeration that the friendly, supportive atmosphere is not just among the student's but also the staff which tempts all those who visit and join at this college.

So, dear valued guardians, well wishers and students!! I'd like to request you all to join at AIC to start your career in a friendly working environment.

Once again, I extend my best wishes to all those who wish to be a part of this college. You're ever welcomed!!

It's needless to say that 21<sup>st</sup> century; a global world calls a multi-skilled people, multifunctional products, multidimensional services.

Competition is neither static, nor concerned with particular area but it is pervasive every where in terms of product and services (organizational aspect) in between person to person (personal aspect).

If we focus on both aspects, education is the one which makes more competitive between people to people or organization to organization. It is the road map which enhances the productivity for all.

Education is a simple word to speak and frequently used infashion. It has two facets, one is quality and the other is mainly practicality. To achieve both of the facets of a single coin, what we need is workshop, case study, simulation, project work, field trips, seminars, group discussion, career counseling, presentation and so on. These are the tools or weapons which materialize the victory over competitors in the field of academic battle.

In this ever-changing world, we are the one among the colleges in Kathmandu Valley providing such kind of programs which is very essential in all sectors. We are proud to say that we are conducting all these programs which add hay on the motto of the college "Let's Shape the Scholar Globally Competitive". This is the place where one can get real taste of all the flavours.

Currently we are running specially Management Stream. Only management is not enough to uplift the overall socio-economic sector in order to contribute the national development. Keeping this fact in mind, we are going to expand our program on Humanities and Social Science in Bachelors Level, Masters Level, and Management in Tourism Sector, Master's Degree in Management. Also we have a future program such as BBA, MBA, BPH, Diploma in Nursing, BN etc.

For these afore-mentioned reasons, valued guardians, well wishers, visitors, students and concerned personalities are kindly requested to come and see the reality of this college and embark son's and daughters' your career to make them more competitive to get success in this global world and eschew your fallacy in the so-called pedagogical scenario. Welcome to Asian Int'l College.

(Buddha Ratna Maharjan)  
Principal

(Hari Krishna Shrestha)  
Director
